

# Scheduling Module

## Do you have limited time and resources to manage your facilities and keep your business running?

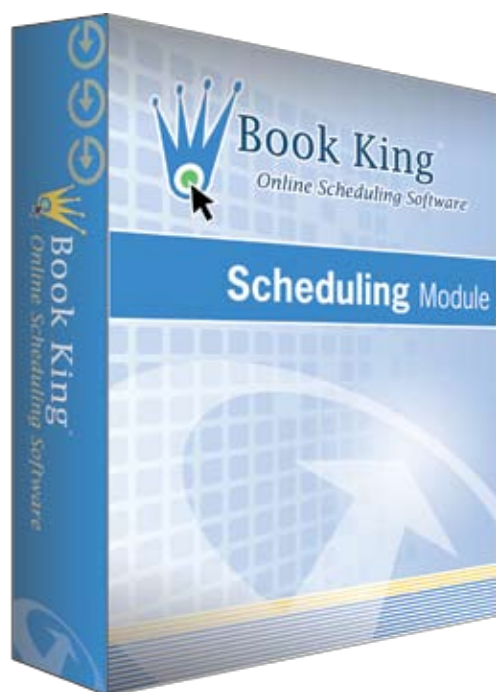

Book King will automate your management processes by providing a complete and affordable rules-based scheduling solution.

Maximizing your facilities usage and rates can make the difference in your organization's success.

Book King's Scheduling Module is the perfect solution to optimize your organization's use of its facilities and resources through an intuitive interface. Book King's centralized solution allows easy access for all your staff and clients.

Book King is a 100% web based solution and supports Microsoft Windows, Mac and Unix operating systems with Internet Explorer, Netscape, Firefox or Safari web browsers.

Book King is quick and simple to implement and provides a complete solution for small, medium and large organizations. All Modules are fully integrated and can be purchased as a suited solution or individually as your organization grows.

## Scheduling Module Overview

- » **Manage Facilities and Resources**  
Dynamically manage your organization's schedulable resources such as facilities, services and equipment. Configure hours, dates, rental rates and booking intervals.
- » **Search Facility Availability**  
Use Time Slot, Block Time and Calendar searches to create recurring or pattern bookings with ease. Able to search multiple facilities at the same time for availability.
- » **Facility Booking Approval Rules**  
Create comprehensive and highly automated facility booking approval and notification rules to effectively manage multiple requests.
- » **Facility Conflict Rules**  
Set conflict rules to subdivide facilities to maximize potential revenue while preventing conflicts and double bookings.
- » **Assign Services**  
Equipment, resources, and services can be booked using the Service Scheduling. Inventory control prevents overbooking.
- » **Facility and Resource Booking Rules**  
Define which facilities and resources users are able to book and assign maximum booking hour limits to control booking activity.
- » **Integrated E-Commerce**  
Enable client access through the Internet to simultaneous search, select and securely pay for bookings of facilities and services.
- » **Configurable User Groups**  
Unlimited simultaneous user support with definable user groups and security for complete access control.
- » **Manage Client Information**  
Searchable client database to update and track client account information or integrate with an LDAP database.
- » **Manage Business Information**  
Create and e-mail invoices with digital signatures, attach documents and produce various custom reports.

Contact Pacific Tier Solutions at 1-888-599-8282. We look forward to assisting you to find the best solution for your organization.

### Customer Quotes

"The set up process was simple and the technical support is excellent. Since the software is internet based, reservations can be checked from any computer at anytime. The primary asset to our department is preventing double bookings."

**Al Lipsey, Deputy Director, Chatham County Public Works and Park Services, Georgia**

"Book King has allowed us to update our rental facilities with ease. Book King is extremely user friendly allowing staff to serve clients in a timely manner."

**Brian Millett, Manager, Township of Cavan-Millbrook-North Monaghan, Ontario**
